Sourcing Targets

Introduction:

Aromatics strongly believes in sustainable agriculture and has offered advanced support to its mint farmers in recent years. Our philosophy and intent are to reduce use of agrochemicals and conventional farming practices that are harmful to ecosystems. In doing so, we will ensure vitality of farmers lineage and the affixed communities. To achieve this organic certification of crops and adopting Integrated Pest Management in conventional crops have become priority. Our UEBT Sourcing Targets reflect the aspirations of Aromatics supply chain. We hope this is just the beginning.

2027 Goals:

- 🌱 **50% of Aromatics' FO supply chain is UEBT/UTZ (RA) certified**
- 🌱 **Increase organic acres overall by 5% each year.**
- 🌱 **90% of all conventional growers utilize Integrated Pest Management techniques.**
- 🌱 **Field Operators and farm employees experience zero injury/adverse health events related to agrochemical application.**
